The Theory of Non Relativity

Today is 07/12/2023, I am writing a short article with the main idea **The Theory of Non Relativity**. Thank you for taking the time in reading this short article.

I would like to begin by stating that the Barry Equality Field Equation supports the Theory of Non Relativity based on Scientific Fact and Existing laws of nature. I will break this down into two parts. The first one is Scientific Fact and below are the supporting arguments.

1). Sub atomic particles exceed past the speed of light. The article below shows a test conducted in 2011 and clocked in faster than the speed of light article below:

<https://www.cnet.com/culture/physics-shocker-neutrinos-clocked-faster-than-light/>

link below: 2). Particles take multiple paths. This statement is supported by a experiment conducted

<https://phys.org/news/2022-05-particle-paths-quantum-physics.html>

3). Energy is Dynamic and Asymmetrical the article below supports this argument:

<https://www.frontiersin.org/articles/10.3389/fpls.2021.619987/full>

These three pieces of Scientific Fact have been tested and confirmed below are some more test and existing laws of nature.

The Barry Equality Field Equation fully supports the three ideas above which include subatomic particles, taking multiple paths, and energy being dynamic. As compared to the Theory of Relativity, it cannot allow for subatomic particles and this was brought to the attention of Albert Einstein. The final supporting evidence and experiment against Einstein's Theory is below:
<https://phys.org/news/2022-09-quantum-entanglement-real-historical.html>

The Barry Equality Field equation recognizes the 2nd law of Thermo Dynamics in layman's terms Energy cannot be created nor destroyed and as a result of unifying M string Theory with the Barry equality Field Equation it now supports Quantum Physics at the 6th and 7th level of M string Theory. Please see article above testing Quantum Entanglement. The Barry equality Field Equation also recognizes dimensions as asymmetrical because higher level dimensions time and space become irrelevant. I would also like to submit the 1st law of Thermo dynamics where energy can be converted from one form to another which also supports the idea of higher dimensional particles taking on the form of our universe. The main idea is Energy comes from Higher Dimensions that are Asymmetrical and Dynamic in nature.

Because the Barry equality Field Equation is based on Intelligent Design -God, the following has been taken from the bible:

1). One day is like 1000 years article below:
https://www.openbible.info/topics/1000_years_is_one_day_to_god

As you could see, higher dimensions time and space become irrelevant. There are 43 verses that supports this idea.

2). The twinkling of a eye one billionth of a second article below:
<https://fotet.org/in-the-twinkling-of-an-eye/>

3). God created earth and it was without form and void
https://www.openbible.info/topics/outer_space

There are over 100 bible verses that supports this idea. When God created the earth, it is clearly shown that the creator is above time and space to be able to create our Universe thus it would point to higher dimensions that are not bounded by our time and space and are Asymmetrical by Design which again The Barry Equality Field Equation supports this as well.

The Barry Equality Field Equation was developed over 10 years ago and the equation was balanced on November 14, 2018 the website and article is below:

<https://barryequalityfieldequation.biz/ws/media-library/58553fe30d244d6ebb3e216941056423/44sidedpolygon11142018finalreview.pdf>

Based on all the supporting evidence, facts, experiments, along with biblical texts a person with reasonable logic skills can conclude that the Barry Equality Field equation can be considered as a valid equation and has it's place in the Scientific Community and The theory of non relativity should be explored in a open minded environment ;furthermore, it can also be stated that it should qualify as the title below:

“The Laws of Non Relativity”

I would like to take the time in thanking each and everyone of you for taking the time in reading this article. If you wish to visit me please find the links below:
